Job Title
Physician Assistant I

Department
Hematology & Oncology

Job Summary

In collaboration with a licensed physician, the Physician Assistant provides exceptional care to a diverse patient population. Promotes wellness and health maintenance by performing comprehensive diagnostic and therapeutic medical services. Develops and implements patient management plans in providing continuity of care. Maintains professional and technical knowledge through continued educational programs and workshops supporting emerging healthcare trends. Performs duties within the legal guidelines of the Cook County Health (CCH) policies.

Typical Duties

- Provides and manages direct patient care
- Conducts patient's health needs assessments
- Provides an independent physician assistant assessment, history and physical examinations, medical reconciliation, coordination of patient care and patient management for a variety of oncologic conditions
- Orders appropriate diagnostic tests or lab work necessary, i.e., x-ray, magnetic resonance imaging (MRI), complete blood count (CBC), etc. and differentiates between normal and abnormal deviations
- Informs and effectively communicates with patient test results and/or diagnosis
- Identifies and communicates with supervisor any patient care issues; offers research guided recommendations for improvement initiatives if applicable
- Develops and implements patient management plans in providing continuity of care
- Performs procedures, treatments, and other subspecialty dependent modalities within the scope of the supervising physician to improve patient outcomes
- Adheres to quality and patient safety standards set forth by CCH
- Adheres to infection control policies and protocols, i.e., hand hygiene
- Prescribes and dispenses medications utilizing best practices
- Complies with federal, state and local legal and professional requirements.
- Maintains professional licensing requirements and technical knowledge through continued educational programs and workshops supporting emerging healthcare trends
- Performs diagnostic and therapeutic procedures as delegated, such as bone marrow aspirations, complex wound care, and other subspecialty dependent modalities within the scope of the collaborating physician to improve patient outcomes.
- Collaborates with the healthcare team to ensure comprehensive care coordination of hematology oncology patients

Minimum Qualifications

- Graduate of an Accreditation Review Commission (ARC) Physician Assistant program
- Valid Physician Assistant license in the State of Illinois or have the ability to obtain license prior to starting employment

Minimum Qualifications

- Board Certified by the National Commission on Certification of Physician Assistants (NCCPA) . Valid Illinois Controlled Substances License (ILCS) or must be able to obtain license within 6 months of starting employment
