Standard Job Description

Job Title
Nurse Coordinator II

Department
Burn Nursing/ICU

Job Summary

The Nurse Coordinator II oversees all aspects of patient care within the designated Critical Care unit or Intensive Care unit, on a 24 hour basis, by evaluating, directing, and supervising all activities of the nursing staff. This position has first line responsibility for clinical and personnel management, patient care, budgeting, and quality service delivery for the unit. The Nurse Coordinator II acts as the day to day manager for all nursing staff in the assigned unit, multiple units, or for a specified patient population. This nursing leadership position requires prior experience and demonstrated mastery in various areas of patient related care.

Typical Duties

- Collaborates with Nursing Divisional Director to develop nursing care standards ensuring patient care in Critical Care or ICU is delivered within hospital established service standards, regulatory and professional standards of care.
- Develops and implements an effective operating plan for the delivery of nursing care within the designated critical care or intensive care nursing unit. The requirements for delivery of care in such a unit call for extreme attention and responsiveness in all areas of patient care including patient assessment, delivery of life saving medication, and the operation of life sustaining equipment.
- Identifies opportunities for process improvement and initiates improvement efforts within the unit to increase and exceed unit performance measures. Conducts patient observations, reviews verbal reports and written documentation, and establishes immediate and long term corrective action plans. Areas of unit performance include compliance with standards of care, LOS, agency and overtime costs, position vacancies and turnover rates.
- Develops long-term unit staffing schedules to ensure adequate daily coverage in accordance with staffing needs.
- Holds primary responsibility for hiring, training, and disciplinary actions of Critical Care nursing staff.
- Drives employee performance by setting clear performance expectations for unit nursing staff and providing necessary information and tools to achieve desired performance.
- Provides daily guidance to staff regarding patient care delivery problems.
- Identifies staff development needs and works with nursing education department or outside sources to provide nurses with continuous education and opportunity for growth and development.
- Ensures all nursing staff meets requisite credential and licensure requirements.
- Partners with nursing team to proactively assess the quality of patient care delivered by nursing staff and to evaluate overall unit effectiveness in meeting care treatment goals.
- Ensures nursing staff follows accurate and complete documentation procedures at all times.
- Completes required quality assessment and performance improvement reports for the unit.

Job Code: 5384

Initials: 

Typical Duties continued

- Develops and implements corrective action plans.
- Maintains a safe, culturally sensitive, and caring patient environment that is reflective of John H. Stroger Jr. Hospital standards, as well as patient and family expectations.
- Demonstrates and promotes awareness of patient care rights; serves as patient advocate.
- Coordinates efforts of ancillary health services to ensure continuity of patient care and positive communication with all hospital staff.
- Works with appropriate departments to ensure proper maintenance of unit medical equipment including life sustaining equipment.
- Prepares and monitors unit personnel, supply, and equipment budgets to ensure expenses are maintained within budgetary guidelines.
- Performs other related duties as required.

Reporting Relationships

Reports to the Divisional Nursing Director
