Chicago, IL 60612

COOK COUNTY HEALTH  
& HOSPITALS SYSTEM  
**CCHHS**  
STANDARD JOB DESCRIPTION

Job Code: 6476  
Grade: 22

Job Title  
Lactation Consultant

Department  
Obstetrics and Gynecology / Pediatrics

**Job Summary**

Under general supervision of the Department Chair, educates patients and staff of the lactation program focusing on antepartum, postpartum, nursery and problems solving resolutions. Offers feedback and patient support during the decision-making process. Develops protocols for assessment of breast-feeding infants and lactating mothers. Collects and reports monthly breastfeeding statistics. Participates in ongoing hospital quality assurance projects to support the Maternity Practices in Infant Nutrition (mPINC) survey required every two years. The Director of Advanced Practice Professionals will monitor the employee for compliance with standards of nursing care and practice.

This position is exempt from Career Service under the CCHHS Personnel Rules.

**Typical Duties**

- Educates patients and staff of the lactation program focusing on antepartum, postpartum, nursery and problems solving resolution
- Provides information that further educates and reinforces data to support the improved developmental outcomes of breastfeed infants
- Offers feedback and patient support during the breastfeeding decision-making process; respects the mothers final decision
- Values the privacy of mothers conducting breastfeeding activities
- Provides breastfeeding support in person or by phone to all mothers delivering at Stroger
- Offers breastfeeding materials and supplies to breastfeeding mothers
- Stocks lactation rooms and storage areas, assuring breast pump equipment is clean and safe before each patient use
- Supports mothers with normal newborns as well as mothers of infants in the NICU, especially extremely low birth weight infants for whom the provision of breast milk is of primary importance in their medical care during extended hospitalization
- Develops protocols for assessment of breast-feeding infants and lactating mothers
- Provides constant, ongoing support with breast pumping equipment, education and constant access to the lactation consultants and counseling staff
- Coordinates distribution and provides electric breast pumps to mothers whose baby remains in the hospital following discharge for any length of time
- Spends time daily with mothers at the bedside of their infants; troubleshoots and resolves issues with the potential to limit the supply of essential breast milk to their infants
- Acts as liaison with medical and nursing staff to any ongoing issues which can be ameliorated with the provision of breast milk to this most fragile population
- Recruits and supervises breastfeeding peer counselors when feasible
- Participates in the development or improvement of breast feeding services through education

CC 3/4/2015

Job Code: \_\_\_\_\_
