

Cook County Health

Research and Innovation Summit: Housing is Health

The Cook County Health Research and Innovation Summit series brings together key stakeholders from across the city, county and state to learn what Cook County Health is doing to address the issues impacting our communities and their health. This gathering provides an opportunity to learn about Cook County Health's housing initiative, while also providing a space for people to engage and collaborate to develop actionable plans to address this critical issue.

WEDNESDAY, MAY 22, 2019
1 – 4 pm
