American Rescue Plan Act (ARPA) Overview

ARPA Funds for Public Health

The Behavioral Health Initiative uses ARPA funds awarded to Cook County Health (CCH):

- Programs address COVID-related public health impacts
- Programs are subject to federal guidelines for the fund use, monitoring, and reporting

American Rescue Plan Act (ARPA) Overview

Collaboration with Subrecipients

A subrecipient receives all or a portion of grant funds received by a prime recipient to carry out a project or program on its behalf.

- Stronger Together Open Call grant awardees will be considered subrecipients
- Subrecipients are responsible for adhering to the Uniform Guidance/federal guidelines for use of the award funds
- Subrecipients must be monitored by the prime recipient (Cook County) to ensure adherence to federal fund use requirements
- All subrecipients are required to have an active Unique Entity ID (UEI) from sam.gov (*note: organizations do not need a UEI at the time of applying for the Stronger Together Open Call*)

American Rescue Plan Act (ARPA) Overview

Additional Federal Guidelines

ARPA Final Rule

Regulation released by the Treasury governing ARPA:

- Intended purpose
- Enumerated costs
- Reporting guidelines

[The Final Rule \[link\]](#)

Uniform Guidance

Set of federal rules for federal funds outlining:

- Administrative requirements
- Cost principles
- Audit guidelines

[2 CFR 200, aka Uniform Grant Guidance \[link\]](#)

ARPA Reporting and Metrics

Types of Metrics

Treasury Required:

- Defined by the US Treasury

County Required:

- Defined by Cook County
- Based on what program stakeholders want to measure

County Equity Metrics:

- Defined by Cook County
- Consistent wording across County programs
- Selected based on relevance to the program

EXHIBIT B

PROGRAM REPORTING REQUIREMENTS

Subrecipients shall include applicable program reporting requirements in any sub award agreement

A. U.S. TREASURY REPORTING REQUIREMENTS

ARPA fund recipients are required to track specific performance indicators and programmatic data in order to comply with Program award reporting requirements, including a quarterly "Project and Expenditure" report, and an annual "Recovery Plan Performance Report." WBDC permits the County and auditors to have access to its records and financial statements as necessary for meeting federal requirements. Funding expenditure records must also be kept for five years after all funds have been expended or returned to Treasury.

Each SLFRF project must be signed to a single Treasury Expenditure Category, as identified by Cook County, and will require specific reporting data based on that category.

Metric	Collection Timeframe	Data Owner
Total Funds Obligated and Expended (\$)	Quarterly	Project Lead
Project demographic distribution: Description of how the initiative is primarily serving disadvantaged communities	Annually	Project Lead
# of small businesses served (by program if recipient establishes multiple separate small businesses assistance programs)	Quarterly	Project Lead
Brief description of structure and objectives of assistance program(s) (e.g., nutrition assistance for low-income households) including public health or negative economic impact experienced	Quarterly	Project Lead
Brief description of how a recipient's response is related and reasonably and proportional to a public health or negative economic impact of COVID-19	Quarterly	Project Lead
Brief description of how funds are being used to respond to negative economic impacts of the COVID-19 public health emergency, including to households and small businesses	Quarterly	Project Lead
# of workers enrolled in sectoral job training programs	Annually	Project Lead
# of workers completing sectoral job training programs	Annually	Project Lead
# of people participating in summer youth employment programs	Annually	Project Lead
Does this project include a capital expenditure? (Y/N)	Quarterly	Project Lead

ARPA Reporting and Metrics

Reporting: Important Considerations

Compliance

US Treasury

- Collection of reporting metrics across all ARPA programs as required
- Collation & submission by County

Impact and decision-making

County

- Identifying performance metrics according to County priorities
- Reporting on metrics for impact assessment, decision-making, public dissemination

Transparency

Public

- Communicating impact according to County priorities
- Maintaining dashboards and other platforms for public access

ARPA Reporting and Metrics

Reporting Overview: Data Collection

Subrecipients (Open Call grant awardees) are responsible for collecting data on project performance.

- Design data intake systems and collect data based on project metrics and outcomes
- Ensure data collected aligns to reporting window and appropriate funding stream
- Collect information from participants using formal intake forms, surveys, or other systems
- Whatever the method of data collection, subrecipients must be able to report on all required project metric
- The Office of Behavioral Health will work alongside subrecipients to provide technical assistance with data collection and reporting efforts as needed

ARPA Reporting and Metrics

Reporting: Important Considerations

Defining Your Measures

- What are your key performance metrics? Program outcomes?
- How do your measures tell a story about the target populations and communities impacted?

Timing & Responsibility

- How often are you collecting the data (e.g., monthly, quarterly, weekly)?
- Who is responsible for tracking those data points? Is it certain staff member (e.g., Program Manager)?

Collection & Storage

- What technology or tools are you using to track your metrics (e.g., Excel, Salesforce)?
- Where are you tracking or storing those key data points and financial information for accurate and timely reporting to your stakeholders?

ARPA Reporting and Metrics

Program Outcomes

In addition to required Treasury and County metrics, grant awardees are asked to develop program-specific outcomes to measure the success of their work

- In your Workplan, outline goals for your program and the outcomes used to track progress towards those goals

SMART Metrics

✓	Specific	Who, what, where, and why
✓	Measurable	Numbers to capture both progress and results
✓	Achievable	Small, realistic (not lofty) steps towards goals
✓	Relevant	Connection to mission statement challenges/needs
✓	Time-Bound	Timelines and deadlines for project steps

Importance of Program Reporting

Assesses programs to determine whether they are accomplishing what they intended to

Helps understand, verify, or increase the impact for target population(s)

Identifies opportunities for improvement or ways to make programs more efficient

Requires data collection and tracking of key performance outcomes

ARPA Reporting and Metrics

Sample Work Plan with SMART Outcomes

Goal 1: Increase access to mental health services for youth ages 13-18 within X, Y, Z communities				
Objectives	Timeline	Outcome	Person/Area Responsible	Comments
