HEALTH

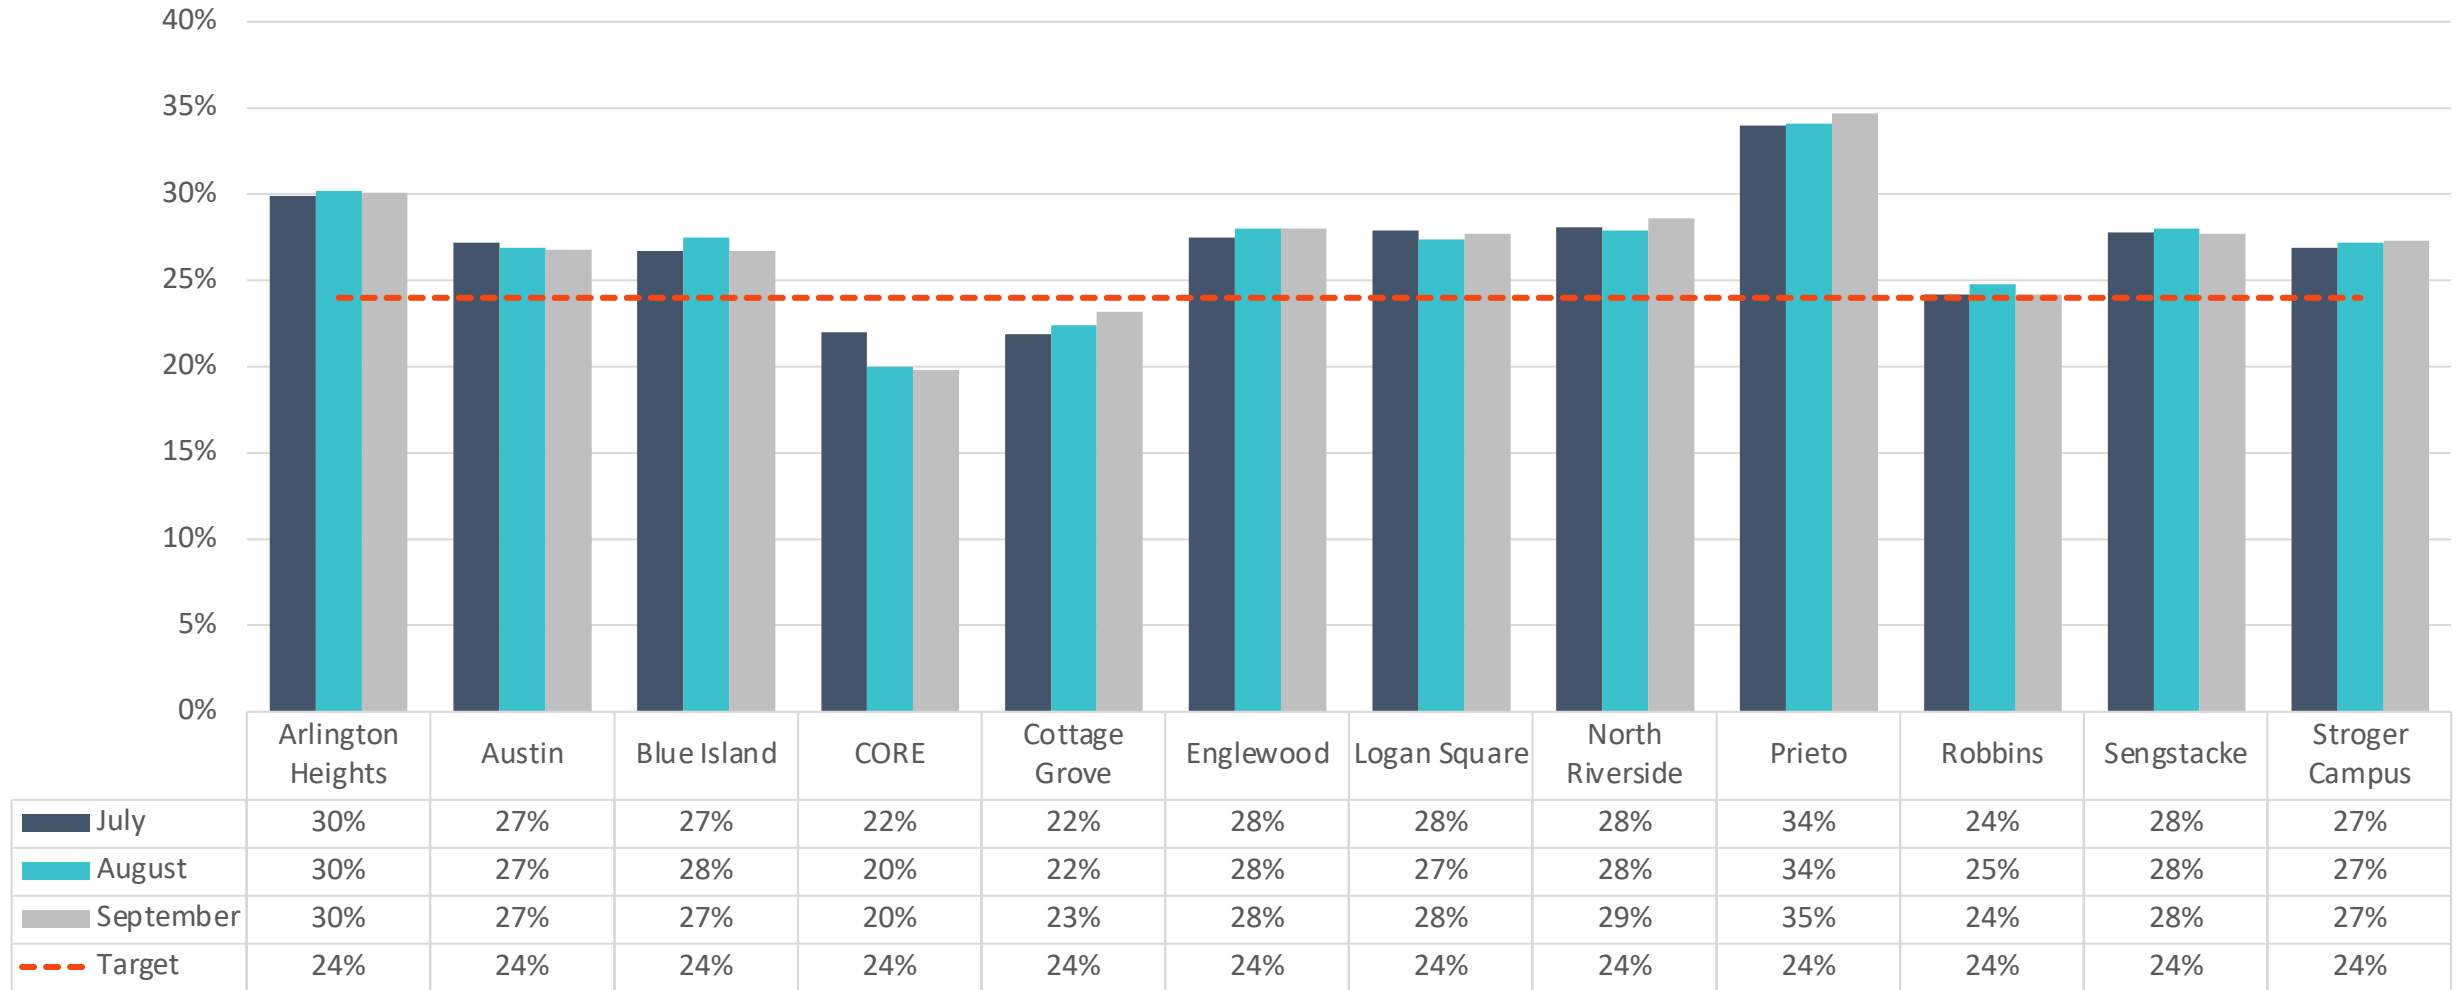

# Diabetes HcA1c Metrics

2020 to 2021 (“in-care” patients)

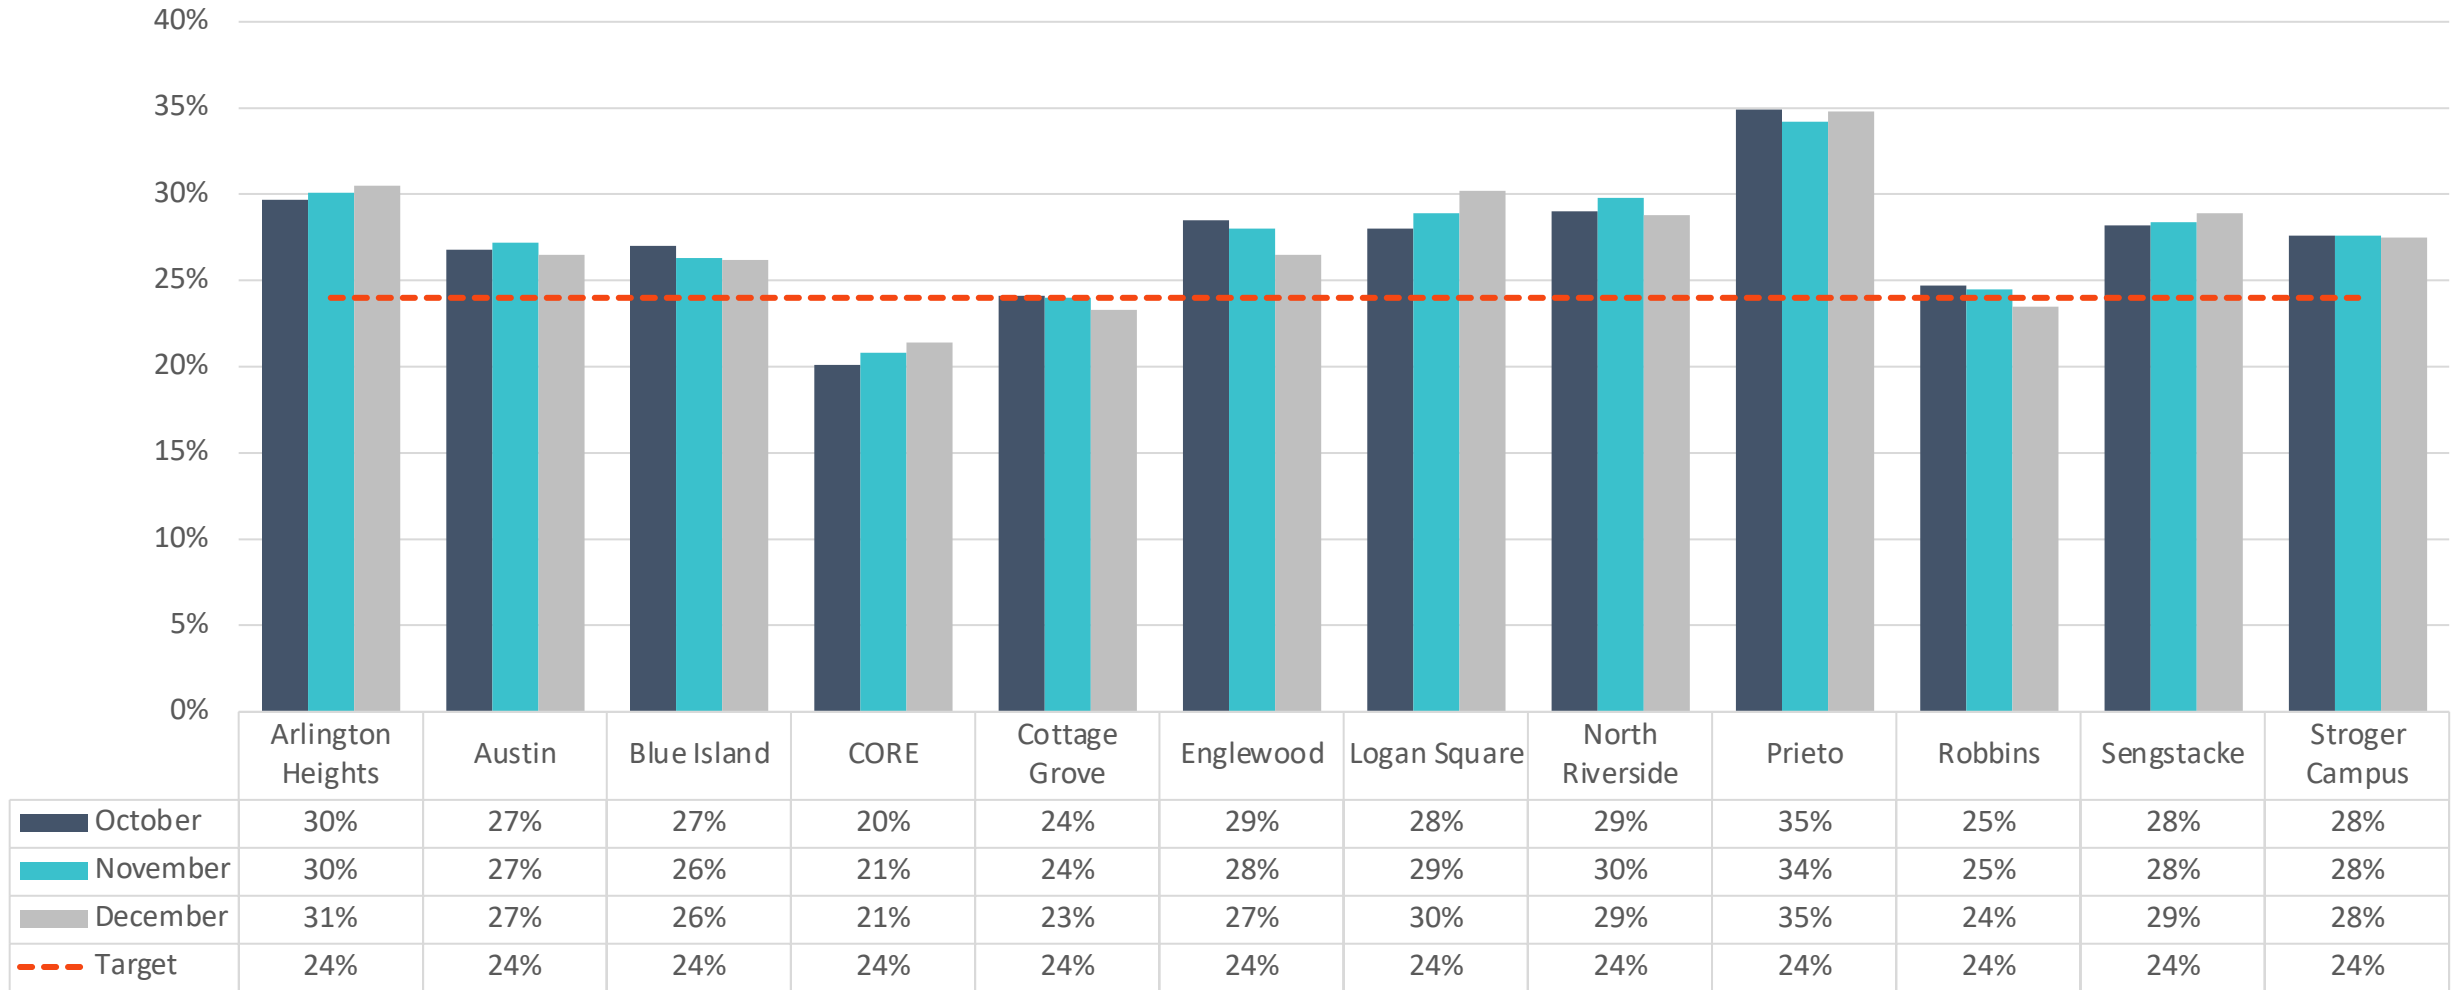

# HgA1c > 9 (“in-care” patients)

3<sup>rd</sup> Quarter 2021

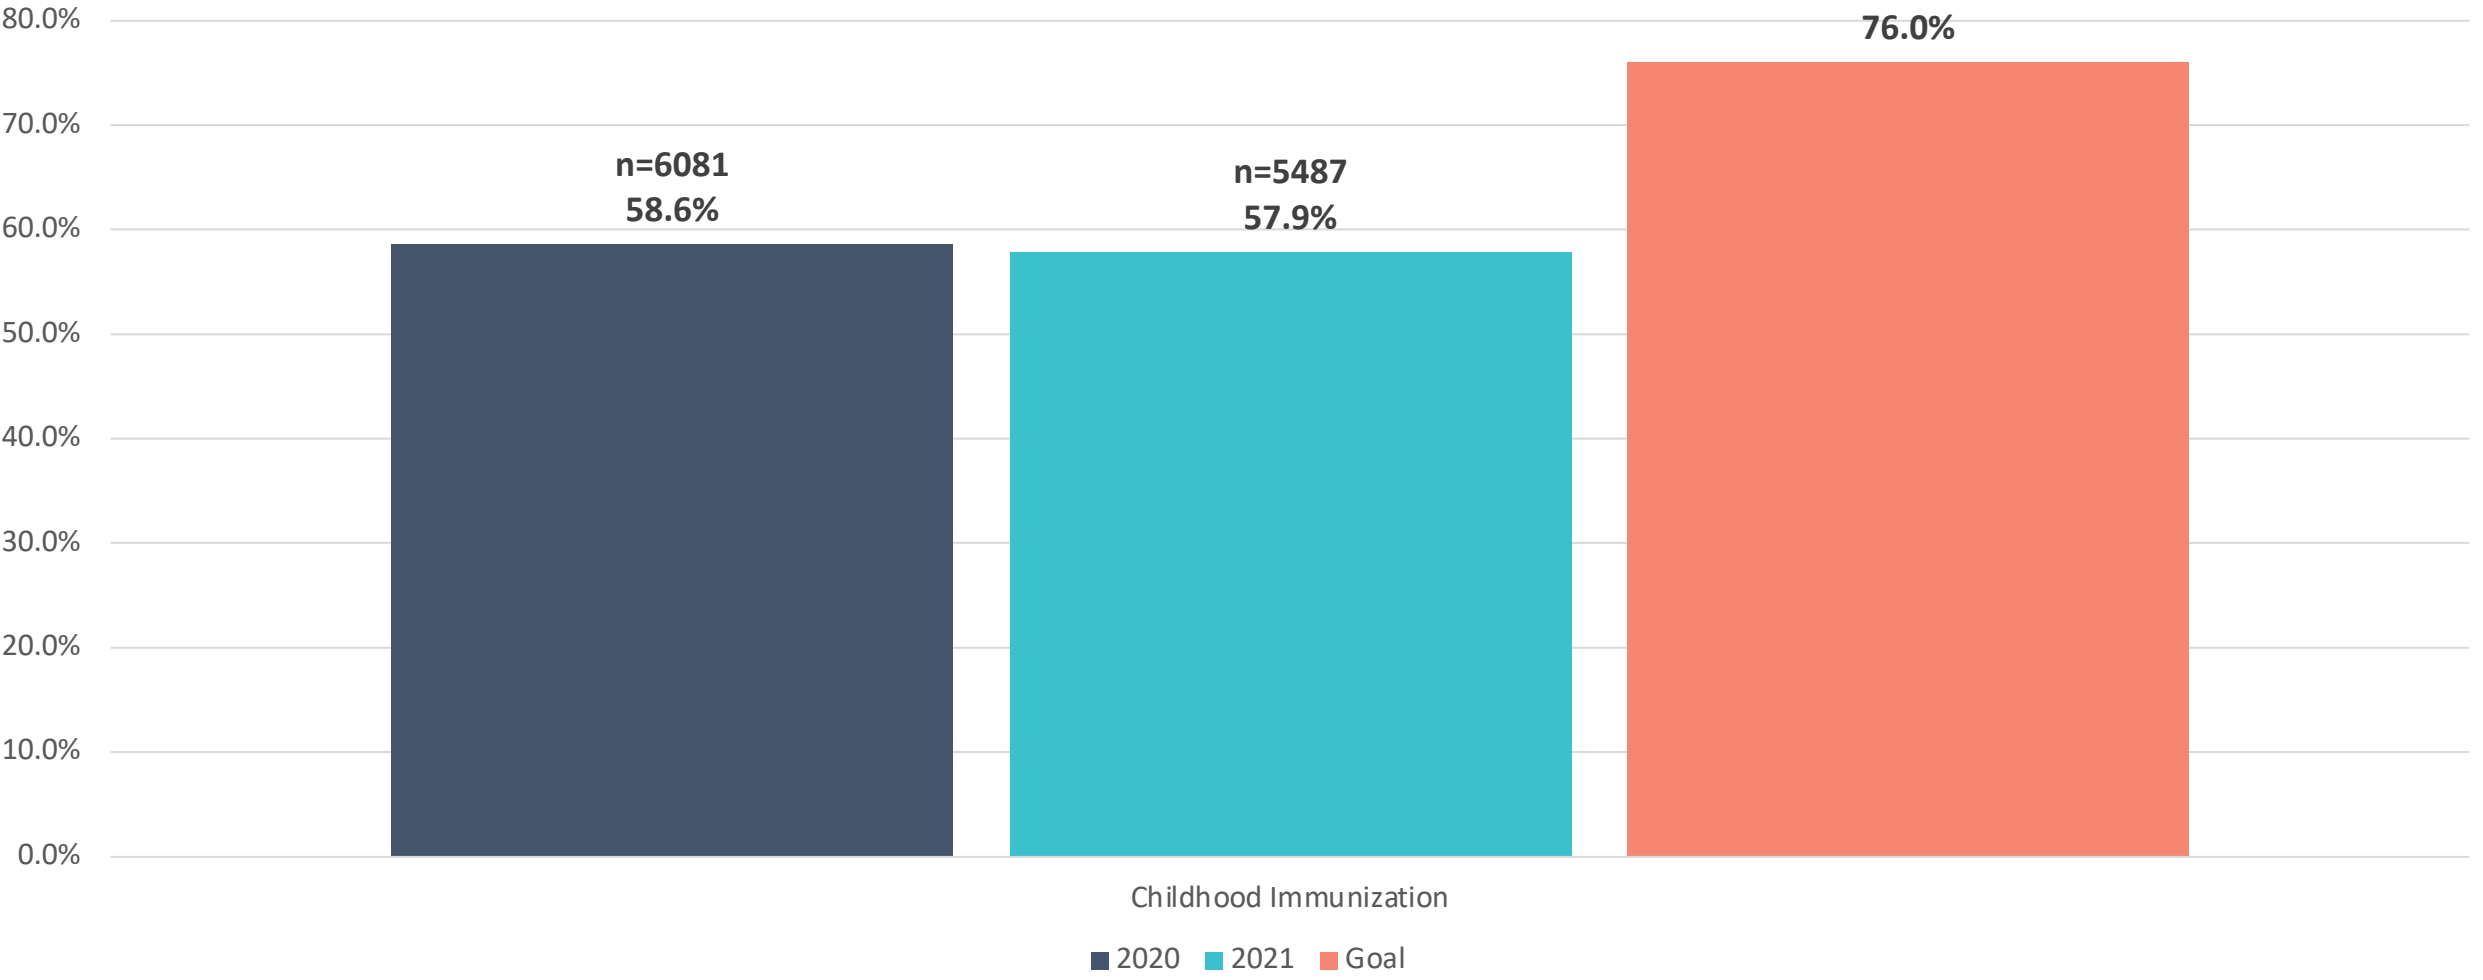

# HgA1c > 9 (“in-care” patients)

4<sup>th</sup> Quarter 2021

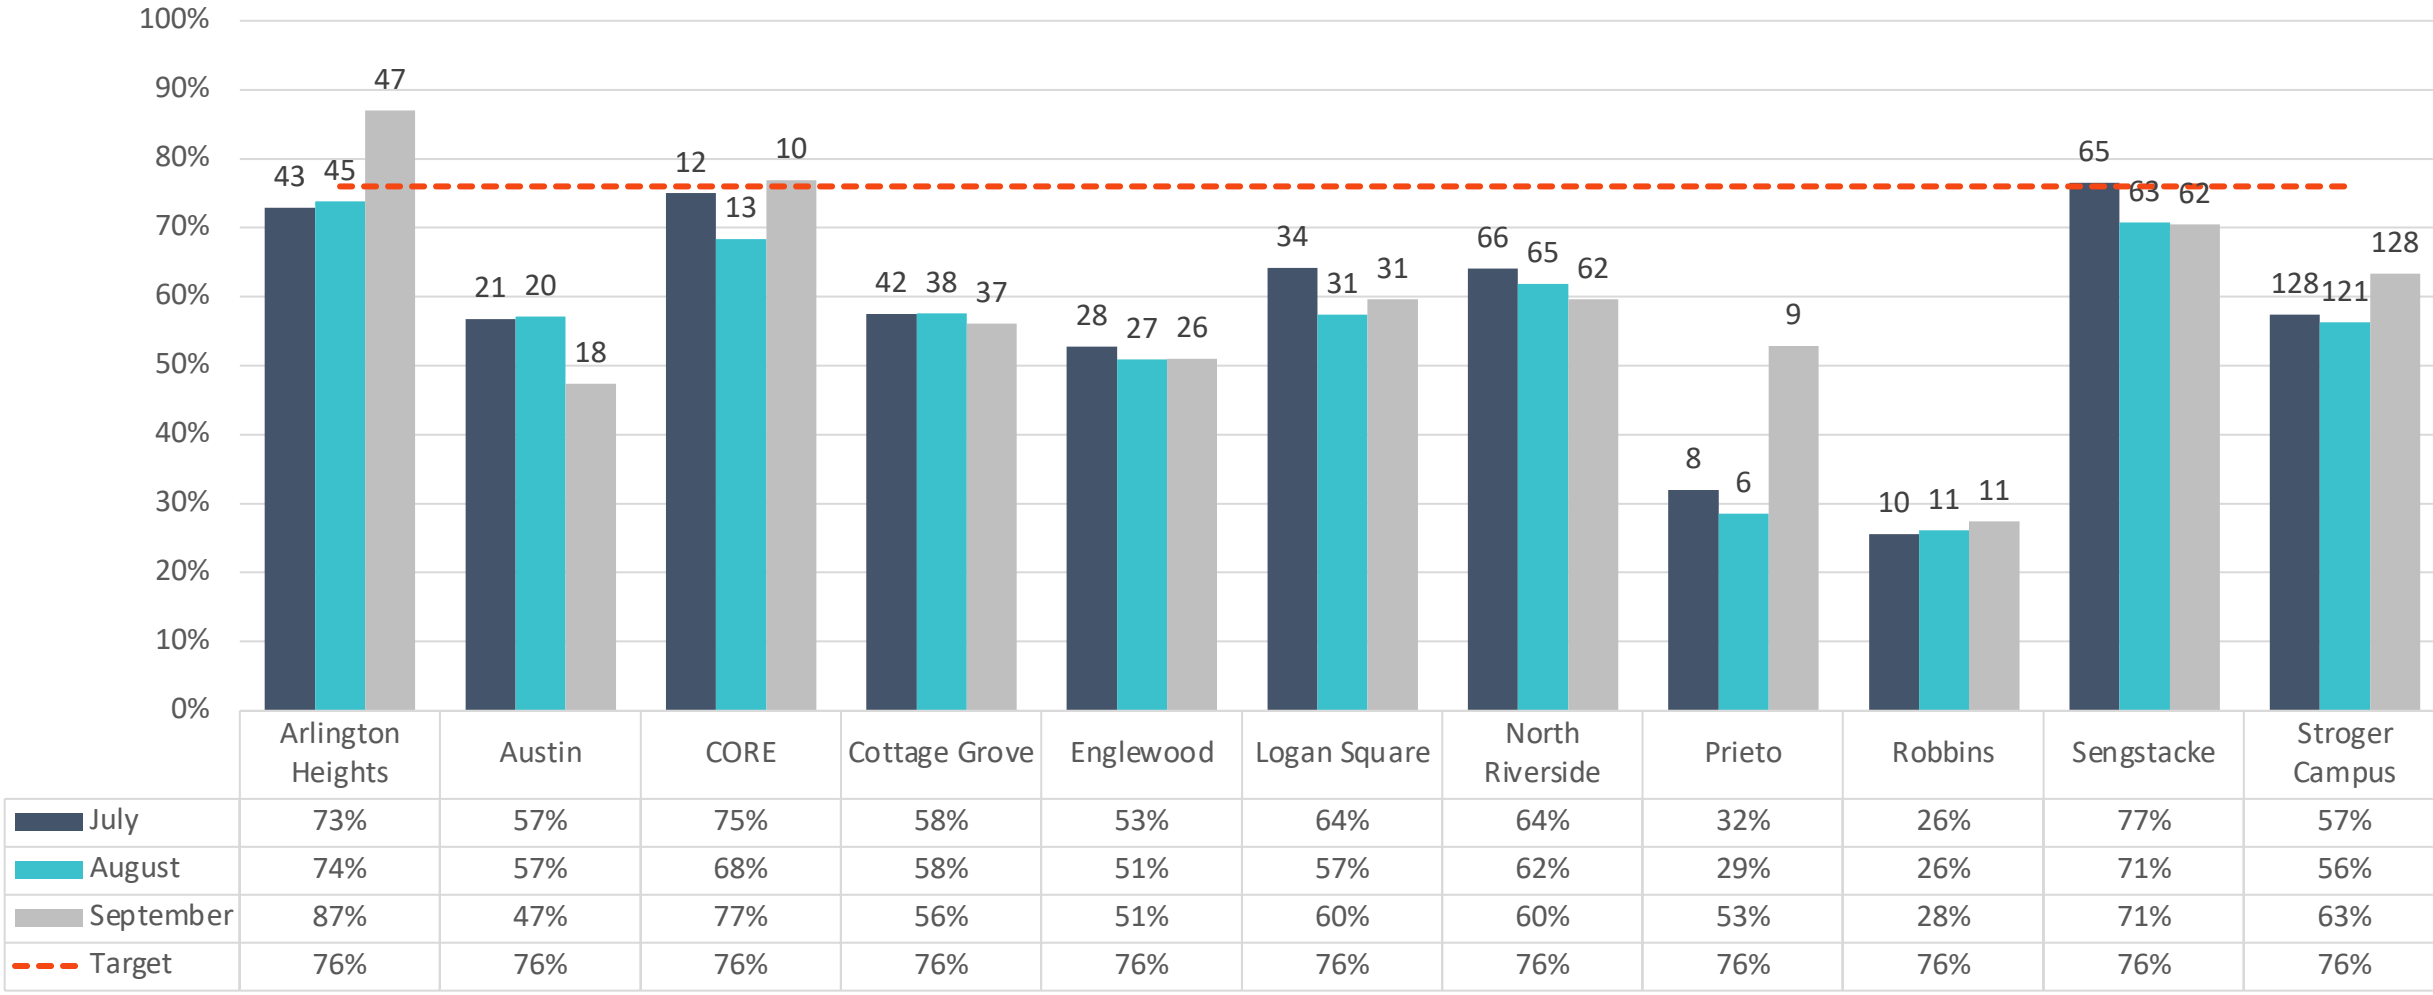

# Childhood Immunizations

2020 to 2021 (“in-care” patients)

# Childhood Immunizations (“in-care” patients)

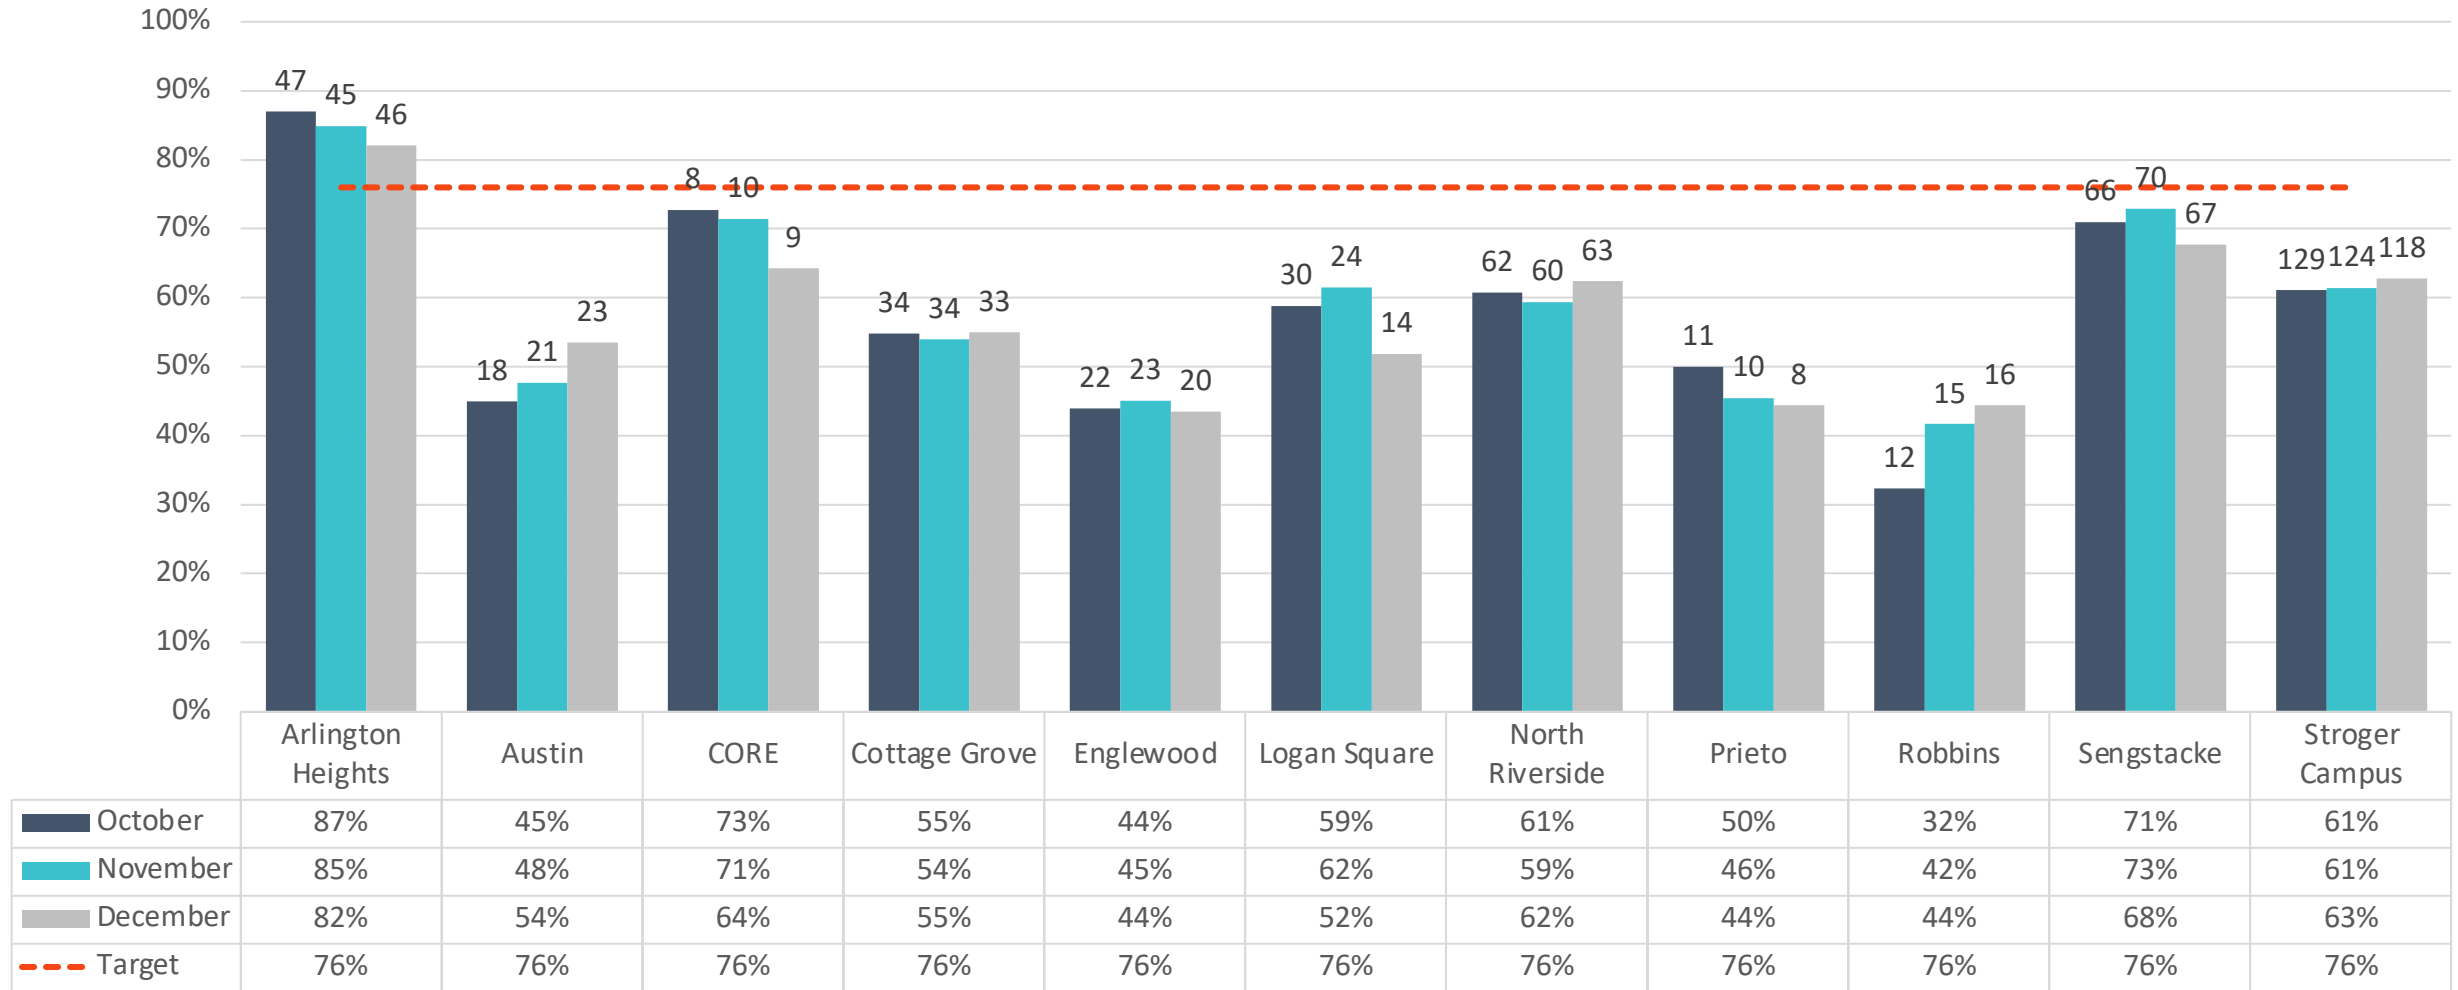

3<sup>rd</sup> Quarter 2021

*\*Higher values are favorable*

# Childhood Immunizations (“in-care” patients)

4<sup>th</sup> Quarter 2021

# Plan

## What's Been Done

- Engaged all site Medical Leaders and Teams
- Monthly report out and action plans (new PDSAs) for the metrics
- Developed standardized outreach workflow
- Local champions

## Next Steps

- Barriers
  - Not enough staffing
  - No current staff dedication to population health
- Train the Care Teams for Onsite Comprehensive HEDIS Workflows
